

VINELANE Gold Leaf Desert Wines & Verjuice

We are proud to be the brand owner of the famous Noble Gold and Ice Kiss Brands. These unique wines are the market leaders in their category and can be seen in all the major Duty Free sections of Australia's major airports. Ideal for Lunar New Year and over Gift giving occasions.

Vinelane Noble Gold - Botrytis Semillon with 23K Gold

This unique wine tastes as good it looks. We have added 22k Gold flakes to our exceptional quality wine made from selected Semillon grapes affected by Botrytis, producing a rich and decadent wine. The long and lingering finish with the intensity of luscious fruit & fresh acidity make these wines an amazing experience. Ideal food accompaniments include desserts, cheeses & dried fruits. Serve Chilled.

Vinelane Ice Kiss- Late Picked Semillon

This delicate wine is characterized by complex oak matured Semillon and rich fruit aromas of Cabernet combined with a lively acidity which brings intense concentration and luscious flavour on the palate. Suitable for any occasion, this wine is sweet in style and best served chilled.

Vinelane Verjuice

Verjuice has been experiencing a revival. Made from the juice of unfermented grape juice. (In our case Hunter Valley Semillon) It can be used in recipes wherever you might find lemon juice or vinegar too tart - which means whenever you want the gentlest bite of flavour.
