

HORSESHOE VINEYARD

The Horseshoe vineyard was established in the Hunter Valley in 1969 by the Hordern family. They had the foresight to plant Semillon, Chardonnay and Shiraz, the best varieties from the Hunter. John Hordern is the third generation of his family to make wine on the property and both his sons are now also winemakers, making them the fourth. Quite an achievement for any family. Fruit from family friends who also own vineyards, are used to fill out the range for these award winning wines.
